### **The CREST Difference – Leadership for a Lifetime**

*Research shows that unless you intentionally address the significant transitions that come at mid-life, your life and leadership will likely flat line.*

And yet, research also shows us that the richest contribution leaders make is usually *after* age 40. To achieve this, a transition must happen in the life of a mid-life adult. There is a critical window of opportunity in the life of every leader that occurs at mid-life, typically in their 40's and 50's. Click [HERE](#) to learn more about this.

The CREST Program offers an in-depth process over two years that enables midlife adults to conduct a thorough self-analysis, a rethinking of paradigms, and a revisioning of life purpose and mission. Click [HERE](#) to read about students in the program, and what they received.
